C2 S1

SLIIT(2022-2026)

BSc (Hons) in Information Technology

Experience

SOFTWARE ENGINEER INTERN (2026)

IM~pact-A AI Limited

Im-Pact-A | Next.js, React, TypeScript

- Developed a marketing and lead-generation website for ROSS Services Ltd, showcasing sustainability verification, validation, assurance, training, and consultancy services.
- Built using Next.js 16, React 19, TypeScript/TSX, JavaScript, CSS Modules, and Global CSS with the App Router.
- Implemented Next.js routing/navigation APIs, next/font, ESLint, and strict TypeScript with the @/* path alias mapped to src/*.
- Designed a responsive, component-based frontend with route-specific styling and reusable React components.
- Technology Stack: Next.js 16, React 19, TypeScript, TSX, JavaScript, CSS Modules, Global CSS, Next.js App Router, Next.js Routing/Navigation APIs, next/font, ESLint.

Projects

Legal Research & Case Analysis System | React Native, Node.js, Python, AI

- Developed a legal-tech research assistant for Sri Lankan law, supporting case analysis, legal research, B-report analysis, and defense strategy assessment.
- Built a semantic legal search engine using Sentence Transformers, FAISS, and cosine similarity to retrieve relevant statutes and court judgments.
- Developed FastAPI AI services and a Node.js/Express backend integrated with Firebase/Firestore and MongoDB.
- Implemented document processing and text chunking for extracting searchable legal content from PDF documents.
- Designed AI-assisted workflows for identifying case similarities, evidence gaps, contradictions, and relevant legal precedents.
- Built the mobile application using React Native, Expo, Zustand, NativeWind, and React Navigation.

Viheli-Super | MERN Stack

- Developed a full-stack web application with user authentication, profile management, file uploads, and admin operations.
- Built using React, Vite, Node.js, Express, and MongoDB.
- Implemented JWT authentication, bcrypt security, Cloudinary, Multer, Nodemailer, Tailwind CSS, and Flowbite.

ViRu Gems | React, TypeScript

- Developed a luxury e-commerce web application for showcasing and selling Sri Lankan gemstones and fine jewelry.
- Implemented product browsing, filtering, wishlist, shopping cart, and responsive navigation with a premium UI.
- Built using React 19, Vite 8, TypeScript, React Router, Tailwind CSS, Framer Motion, and Lucide React.
